BOIKANYO MASILO

FRONT-END DEVELOPER / QA TESTER

INTRODUCTION

Hi there! I'm Boikanyo and I love coding. I am a believer in life-long learning and as such I am always looking for opportunities to up-skill myself.
I am currently Front-end Developer coding mailers for one of the major banks and before this, I was a QA tester, working on client websites.
I have a curious mind and a thirst for knowledge, this has led me to platforms like Mongodb University, Google Africa Scholarship, Free Code Camp and self-learning.
I have ventured into the world of React which Im learning by building projects.
